CME 1 point - to be claimed with AAMD before 22 May 2020

Agenda

01:00-01:05pm Webinar login & welcome

01:05-02:05pm Lecture

02:05-02:30pm Q&A and closure

Meeting capacity

The webinar supports a limited number of participants. Attendance is on a first come-first serve basis. If registrations exceed the capacity of the meeting platform, the webinar will be recorded and all registrants will receive access to the recording regardless of whether they were able to attend the live webinar.

Program description

In this webinar on clinical workflow, Philip Bowen will share his knowledge and experience on planning for tradition therapy from home.

Philip will cover several hypo-fractionated therapy plans and offers tips and tricks for dosimetrists working remotely from physicians and peers.

Philip brings over twenty years of clinical experience. He now works as a solo dosimetrist at the Agnesian Cancer Center in Fond du Lac Wisconsin.

The webinar will be prefaced with technical information specific to Pinnacle Evolution (Pinnacle 16.4) and provide participants ways and means to reach out to the Philips Pinnacle support and education team.

Target audience

Radiation Oncologists, Physicians, Dosimetrists, Radiation Therapists

Faculty

Speaker Philip Bowen BS, CMD, RT(R)(T)(CT), Agnesian Cancer Center
