Webinar with Dr Giovanna Ferraioli

Diagnostic routine of liver elastography: clinical case reviews with the expert

Date

Thursday, Nov 12, 2020
5:00 – 6:00 pm SGT (UTC+8)

Accreditation:
1 CPD with SSR may be claimed
for attendance of the webinar

[**Register now**](#)

In this liver ultrasound webinar, Dr Giovanna Ferraioli, MD, Researcher at Fondazione IRCCS Policlinico San Matteo, Medical School University of Pavia (Italy), discusses best practices, protocol tips and clinical considerations in the diagnostic routine of liver elastography.

This session will explore:

- Several clinical case reviews
- How to optimize scan modes, acquisition parameters, and other factors to ensure good imaging and reliable measurements
- What to remember from the latest SRU consensus and WFUMB guidelines
- Tips and tricks to implement liver elastography in your diagnostic routine
- Meet the expert online via live Q&A

Speaker

Dr Giovanna Ferraioli, MD
